| CS-498 | 1 Deep Learning In Signal Processing | | | |
|-----------------|--|--|--|---|
| Draft O | Outline | | | |
| | | | | D |
| week | Day 1 | Lab | Day 2 | Project Milestones |
| | Course Introduction; DL Intro: | 5%: Get a Rosie account; | DSP Intro: Signal types (audio, | |
| | binary cross-entropy/MSE, deep | Run "Get Started" Examples | position/acceleration, image, video,), | |
| | networks, backpropagation | Run Get Started Examples | Nyquist, sampling, quantization, LTI (linear, time-invariant) systems and difference | |
| | networks, backpropagation | | equations, detection/ enhancement/ | |
| 1 | | | denoising | |
| | DL: The training pipeline, optimization | 10%: Rosie / MATLAB Lab TBD | DSP: system response, convolution, as | |
| | algorithms (SGD, ADAM), overfitting, | 10%. Rosie / WIATEAB Lab TBD | projection onto basis functions (linear | |
| | confusion matrices (accuracy, | | algebra) | |
| | precision, recall, etc.) | | aigebiaj | |
| 2 | | | | 5%: Topic Selection, Identify 3+ References |
| | DL: Fully connected layers (FC), | 10%: Rosie / MATLAB Lab TBD | DSP: frequency content and response, | 576. Topic Scientifin, Identify 57 Neterences |
| | activations (nonlinear), NN as robust | 20/31 110310 / 1111 11 2 12 200 122 | Discrete Fourier Transform (DFT), FFT | |
| | function approximation, generalization, | | (,, | |
| | basic network structures | | | |
| 3 | | | | |
| | DL: Convolutional layers (conv1d, etc.); | 10%: Rosie / MATLAB Lab TBD | TBD / catch up | |
| | pooling layers | · | | 15% Background Paper: Summarize |
| | | | | references, propose implementation approac |
| 4 | | | | (data source, outline work to be done) |
| | DL: Layers for robustness: dropout, | Project work | DSP: spectrograms and windowing | |
| | batchnorm; improved error measures | | | |
| | (perceptual,) and backprop. | | | |
| 5 | | | | |
| | DL: Pruning and model quantization | Project work | DSP: inverting the spectrogram, perfect | |
| 6 | | | reconstruction | 10% Preliminary results, updated work plan |
| | DL: TBD: Autoencoders, data | Project work | TBD | |
| | augmentation, transfer learning, or | | | 10% Presentation Draft: Slides and notes, |
| 7 | | | | mostly complete, final results may be pendin |
| 8 | | | | |
| 9 | | Project Presentations | | 10% Presentation execution |
| | 10 | | | 15% Writeup of final results |
| 11 Finals Week | | | | |
